

What CSR International Services can do for your business

CSR International Services is specialized in strategic procurement and supply chain management services for companies worldwide. Our international team has a wealth of knowledge and skills spanning **25 years of procurement experience** in the international market places in a variety of industries.

We provide flexible and **cost-effective procurement solutions** to help our international clients' businesses become more efficient when sourcing products from Europe. Due to our ideal business location in the central European city of Munich and our international background and expertise, we can make a great difference and add value for overseas and European companies by **supporting their procurement team here in Europe** when dealing with suppliers.

Project-based, long-term or interim contract, our specialist procurement team can work individually with each client to meet and understand the clients' business requirements.

Apart from our specialist knowledge and skills, the benefits of our availability and international experience are that we can step into **specific business situations quickly** and make a difference. This could involve leading a team or a specific project in light of a sudden staff shortage or departure. We can help to take a supporting lead during a period of change, start-up and growth, or to instigate a new initiative.

CSR International Service are a passionate and reliable procurement and supply chain management provider. Browse this brochure to review our expert services. Put our vast industry experience to work for your business by contacting us today for additional information on any of our services.

We shall look forward to receiving your valued enquiries.
